

SI Cards at JK2017

SIAC card

Numbered
8000001 to 8999999

Contactless punching at controls and Finish, dib elsewhere

(battery check made when issued)

Battery Check Box (dib, wait for beep)

- Does NOT switch SIAC battery on
- 1 beep: battery OK
- 5 beeps: battery weak, good for 4 days¹
- No beep: battery flat, replacement required at SIAC hire (at registration)

Clear Box (dib, wait for beep)

First Check Box (dib, wait for beep)

- Checks card is cleared
- Logs who has started
- Activates SIAC battery (card flashes faint green every 10 secs)

Second Check Box (dib, wait for beep)

- Records that competitor started at the correct time
- Logs who has started
- Confirms battery in SIAC is activated (and starts if not already activated)

Timed Start

Day 1: Courses 1 & 2
Days 2 & 3: All except those Punching

- No dibbing

Punching Start

Non-SIAC card

All other SI numbers

Traditional punching (dibbing) everywhere

(only SIAC cards for hire at JK2017)

- No check required

Clear Box (dib, wait for beep)

First Check Box (dib, wait for beep)

- Checks card is cleared
- Logs who has started

Second Check Box (dib, wait for beep)

- Records that competitor started at the correct time
- Logs who has started

Timed Start

Day 1: Courses 1 & 2
Days 2 & 3: All except those Punching

- No dibbing

Punching Start

Day 1: Courses 3+
Days 2 & 3: Late Starters
All days: Helpers

- Dib to start

Control Box

- Dib box which flashes and beeps

Finish Box

- Dib Finish box which flashes and beeps

- Dib at download

¹ If the battery were to fail on a course, normal dibbing can be used
² If there are multiple competitors punching a control in a short time, it may be helpful to hold the SIAC near to your ear to hear it beep
